THAILAND - THE LAND OF ENDLESS OPPORTUNITY
If you ask 100 people about their favorite place or thing to do in Thailand, you may as well get 100 different answers. For some it is the nice weather and the beaches, for others it is shopping and entertainment. Others again may mention the culture and the food and again some others may talk about the natural beauties.

From the green hills of the North to the brusque beauty of the Isan, from buzzing Bangkok to the islands of the South, Thailand has a lot to offer for almost any kind of holiday dreams. If you want to be active and go snorkeling, diving, cycling, hiking or even climbing or you just want to relax with a nice traditional Thai massage on the beach, you name it and you can have it all!
Country
Thailand, the only Southeast Asian nation never to have been colonized by European powers, is a constitutional monarchy whose current head of state is HM Bhumibol Adulyadej. A unified Thai kingdom has existed since the mid 14th century, and Thailand was known as Siam until 1939 when it officially became the Kingdom of Thailand.

Geography
Thailand is the 50th largest country in the world; most nearly equal in size to Spain. Located just 15 degrees north of the equator, Thailand has a tropical climate and temperatures typically range from 19 to 38 degrees C (66-100 F). Thailand’s largest peak, Doi Inthanon, is 2,565 meters (8,415 ft.) tall. Thailand covers 510,890 sq. km. of land and 2,230 sq. km. of water. The coastline of Thailand is 3,219 km. long. Thailand’s longest shared border is with Myanmar (Burma), stretching 1,800 km.

Weather
The weather in Thailand is generally hot and humid: typical of its location within the tropics. Generally speaking, Thailand can be divided into three seasons: “hot” season, rainy season, and “cool” season, though Thailand’s geography allows visitors to find suitable weather somewhere in the country throughout the year.

Population
The population of Thailand comprises of roughly 65 million citizens, the majority of whom are ethnically Thai, though peoples of Chinese, Indian, Malay, Mon, Khmer, Burmese, and Lao origin are also represented to varying degrees. Approximately 7 million citizens live in the capital city, Bangkok, though this number varies seasonally and is otherwise difficult to accurately count.

Area
Thailand has a rough geographical area of 514,000 sq. km. (200,000 sq. miles). This makes Thailand roughly equivalent in size to France or Texas.

Capital
Bangkok
People
The vast majority (roughly 80%) of Thailand’s nearly 65 million citizens are ethnically Thai. The remainder consists primarily of peoples of Chinese, Indian, Malay, Mon, Khmer, Burmese, and Lao decent. Of the 7 million citizens who live in the capital city, Bangkok, there is a greater diversity of ethnicities, including a large number of expatriate residents from across the globe. Other geographic distinctions of the population include a Muslim majority in the south near the Malaysian border, and hill tribe ethnic groups, such as the Hmong and Karen, who live in the northern mountains.

Language
More than 92% of the population speaks Thai or one of its regional dialects. While the Thai language is the official language of Thailand, as a result of its cosmopolitan capital city and established tourism infrastructure, English is spoken and understood throughout much of Thailand.

Religion
94.6% of Thais are Buddhist, 4.6% of Thais are Muslim 0.7% of Thais are Christian

Government
Thailand is a constitutional monarchy, not dissimilar to England’s, whereby an elected Prime Minister is authorized to be the head of government and a hereditary Thai King is head of state. The constitution of Thailand allows for the people of Thailand to democratically elect their leaders in the form of a parliament, with a bicameral legislature consisting of a Senate and House of Representatives, and executive authority in the hands of the Prime Minister. A Judiciary, overseen by the Supreme Court, was designed to act independently of the executive and the legislature.

Temperature
Located just 15 degrees north of the equator, Thailand has a tropical climate and temperatures typically range from 19 to 38 degrees C (66-100 F)

Economics
The economy of Thailand is reliant on exports, which account for 60% of Thailand’s approximately US$ 200 billion GDP. The economy of Thailand is the 2nd largest in Southeast Asia. Thailand’s exports consist primarily of agricultural products including fish and rice, of which it is the largest exporter in the world, as well as textiles, rubber, automobiles, computers and other electronic appliances, and jewelry. While one of the premier tourist destinations in the world, Thailand relies on tourism to provide only 7% of its GDP.

Currency
The currency of Thailand is the Thai Baht. Baht come in both coin and banknote form. The size of Thai currency, both coins and bills increases with value and varies in color.

Time
Thailand Standard time is GMT +7. Thailand does not observe daylight savings.

Electricity
Electrical outlets in Thailand are charged to 220V, at 50 cycles per second, which is compatible with appliances from the U.K. but not those from the US and many other nations. While most computer cables have adaptors for voltage, visitors from the U.S. and those not on the 220/50 V. will have to bring adapters to run most other appliances. Outlets in Thailand generally feature flat, two pronged plugs, though some feature holes for round plug ends. Few outlets feature three holes (grounded outlets) so it is often necessary to have a three to two prong adapter for using notebook computers in Thailand.

Thailand Destination

BANGKOK: Bustling Bangkok is surely one of the hot spot cities all over Asia. This mega city is rich in diversity and history, magnificent golden temple and stupa, shopping centers, famous for a notorious nightlife and the delicious Thai cuisine. If Frank Sinatra sings “New York never sleeps”, Bangkok doesn’t even take a nap and has all what it takes. Best time to travel: all year round.

SUKHOTHAI and AYUTTHAYA: If you are into the history of “Old Siam”, you can not afford to miss these cities. Impressive sites, which are all part of the UNESCO World Heritage and will stun you with a mass of temple- ruins and photo opportunities. Best time to travel: all year round.

KANCHANABURI: take a trip back into the younger history of Thailand and visit the notorious “Bridge on the River Kwai” and take a ride on the “Death Railway”, that was built in WW2 under Japanese occupation and cost the lives of thousands of prisoners of war. On top of all that, there is the River Kwai Valley, several national parks, with beautiful waterfalls and vast areas of jungle for trekking. Best time to travel: all year round.

CHIANG RAI & CHIANG MAI: the sister- cities in the North are most famous for the beautiful surrounding nature, the many temples and the ethnic minorities, who have managed to keep many of their traditions and add enormously to the culture of Thailand. Best time to travel: all year round.

ISAN: the northeastern region of Thailand is not yet (touristic) fully discovered, although the saying is “You have not been to Thailand, if you have not been to Isan”. Given that there are fewer important sights to see compare to other popular destinations but Isan makes up for that with a special type of cuisine, a beautiful, seasonally changing scenery and some of the most genuine people in the country. If you give Isan a chance, it sure will win your heart. Best time to travel: all year round.
PHUKET & KOH PHI PHI: Phuket is the “all-in-one” destination. Thailand’s biggest island offers everything: breathtaking nature, party and shopping and some of the best beaches. Nearby Phi Phi Island is still very popular for day trips, but also becoming a holiday destination on its own. Both islands are popular spots for divers and water sport enthusiasts. **Best time to travel:** end of October to April. Phuket, with its perfect infrastructure, is a destination for all year round.

KHAO LAK & KOH KHO KHAO: the almost 40 km’s of beach are extremely popular as a holiday resort for families and people who seek peace and nature. The infrastructure is well developed, doing fine without shopping centers, bars or jet-skies. Khao Lak and the small, quiet island of Koh Kho Khao are surrounded by national parks. **Best time to travel:** November until April. During rainy season, Khao Lak might reward you for taking a risk, with low prices and a lot of peace.

KOH CHANG: Thailand’s second biggest island is a “sleeping beauty”. Although the infrastructure is well developed and the beaches are nice, the nature is stunning and the airport provides guests with a rather short journey from Bangkok, the island never made it “big”. Families, couples and nature lovers should find ideal possibilities on the island. **Best time to travel:** November to end of March. The rest of the year often sees torrential rain and strong winds.

KOH SAMUI, KOH PHANGAN & KOH TAO: 3 names - 3 different destinations. Samui is fully developed and offers everything: entertainment, shopping, beaches and luxury hotels. Koh Phangan is famous for Full Moon Parties and some stunning nature, especially in the inner parts. Koh Tao is ideal for divers, with the best dive spots on the east coast. Go island hopping and spend your holiday in 3 different places! **Best time to travel:** from February to October.

THE GULF OF THAILAND: this is usually the name for a whole region of very different seaside resorts: Pattaya as the party-place, slightly quieter in Jomtien, the undiscovered Rayong and the small island Samed. The quiet and family friendly of Cha Am, Hua Hin and Pranburi to the South. All destinations cater to very different audiences. **Best time to travel:** though the mainland resorts are marketed as “all year round” destinations, the weather is slightly better from October to April.

KRABI & KOH LANTA: Krabi offers the most spectacular landscape in all of Thailand. Hundreds of limestone rock formations and islands define the panorama. Beaches in Aonang or Nopparatthara are not among the best, but if you take a “watertaxi”, it will take you to Koh Poda or Koh Gai and some of the whitest beaches you have ever seen. Koh Lanta is a good family destination: long, shallow beaches and a well developed infrastructure. **Best time to travel:** November to April.
